PROFILE

Design leader with **12+ years** delivering user-centered digital products across banking, healthcare, government, and consumer sectors. Specialized in **AI-first UI/UX (Agentic & Generative AI)**, UX strategy, and scalable design systems — translating complex business and technical requirements into accessible, intuitive experiences. Experienced in discovery, user research, information architecture, interaction design, and workshop facilitation. Partner closely with product, engineering, and business leaders to drive measurable usability and product outcomes. Currently pursuing an **Advanced Certificate in UI/UX (Agentic AI & GenAI)** at IIT Madras Pravartak.

EXPERTISE

Design & UX / AI-First UX (Agentic & GenAI) · Conversational UI · UX Strategy · Product Design · Service Design · Interaction Design · Information Architecture · Design Systems · Design Thinking Facilitation

Research & Validation / User Research · Usability Testing · Stakeholder Interviews · Competitive Analysis · Journey Mapping · User Flows · Accessibility (WCAG)

Tools / Figma · Figma Make · FigJam · Adobe XD · Adobe Photoshop · Zeplin · Generative AI tools

Methods & Delivery / Wireframing · Prototyping (Low & High Fidelity) · Agile Product Development · Stakeholder Management · Design Documentation · Design Reviews & Audits

EXPERIENCE

Design Manager — PwC (PricewaterhouseCoopers)

2023 — Present

- Lead end-to-end UX delivery for enterprise clients across banking, healthcare, and government, translating complex business and technical requirements into accessible, scalable design solutions.
- Drive AI-first UI/UX initiatives covering Agentic and Generative AI use cases, including conversational interfaces and AI-augmented enterprise workflows.
- Conduct user research, stakeholder interviews, and competitive analysis to inform design strategy and product decisions.
- Define and govern enterprise design systems, ensuring consistency, scalability, and WCAG accessibility compliance across products.
- Facilitate design thinking workshops and co-creation sessions with senior client stakeholders and cross-functional internal teams.
- Partner with developers, architects, and product managers on non-functional requirements (NFRs) and seamless design-to-development handoff.
- Contribute to pre-sales activities, design proposals, and client presentations to support scope definition and engagement strategy.
- Oversee design reviews, audits, and validations to uphold quality, usability, and design integrity.

VP, Design — TechnoGen

2022 — 2023

- Headed the design function, setting UX vision, hiring strategy, and operating model for the design team.
- Established design standards, processes, and reusable system components to support rapid product delivery across multiple client engagements.
- Led discovery and design strategy for enterprise and SaaS products, owning user research, information architecture, and high-fidelity UI in Figma.
- Partnered with executive stakeholders and engineering leadership to align product roadmaps with user needs and business goals.
- Facilitated design thinking and co-creation workshops to align cross-functional teams on product direction and prioritization.
- Mentored designers across UX, UI, and research disciplines, building team capability and design maturity.
- Owned design reviews, documentation, and developer handoff to ensure consistent, accessibility-compliant implementation.

Senior UX Designer — mavQ (MTX)

2021 — 2022

- Designed UX for enterprise SaaS and government-sector products, owning research, user flows, wireframes, and high-fidelity UI in Figma.
- Conducted user research and usability testing to validate concepts and iterate designs based on user feedback.
- Contributed to and maintained product design systems, ensuring component consistency and scalability across modules.
- Collaborated closely with product managers and engineering teams in an Agile environment to deliver features on schedule.
- Translated complex enterprise workflows into intuitive, human-centered interfaces.
- Produced detailed design specifications and supported developers through implementation and QA.

Creative Director — CarDekho Group

2015 — 2021

- Led creative and UX direction across consumer-facing web and mobile products in the auto marketplace category.
- Owned end-to-end design for new product launches, feature redesigns, and brand-aligned marketing experiences.
- Built and scaled the in-house design team, defining hiring standards, design rituals, and review processes.
- Drove user research and usability testing initiatives to inform feature prioritization and experience improvements.
- Defined and maintained the product design system to ensure visual and interaction consistency across platforms.
- Partnered with product, engineering, and marketing leadership to align design with business and growth objectives.
- Reviewed and approved design deliverables to maintain quality, usability, and brand integrity.

Senior Designer — SynapseIndia

2011 — 2013

- Delivered UI and visual design for client websites and applications across multiple industries.
- Translated client briefs and business requirements into wireframes, mockups, and final UI deliverables.

- Collaborated with developers to ensure accurate implementation and pixel-quality output.
- Contributed to early-stage design system thinking through reusable components and style guidelines.
- Participated in client meetings and design presentations to align on creative direction and scope.

EDUCATION & CERTIFICATIONS

Advanced Certificate in UI/UX (Agentic AI & GenAI) — IIT Madras Pravartak

Expected 2026 · Pursuing

Google UX Design Professional Certificate — Coursera

2021 — 2022

Bachelor of Science — Multimedia and Animation — Himalayan University

2013 — 2016

Diploma in Design — Multimedia and Animation — Ants Animation School, Bengaluru

2007 — 2009
